

MYSPOТ NK-71HE-EZ

~ A Table Spot Welder with Compact Mobility ~

It's easier than ever!

Easy Handling

Place products on the copper table. The Horizontal Gun can reach more complicated shapes. Tip pressure is automatically applied. The operator can get the job done without fatigue.

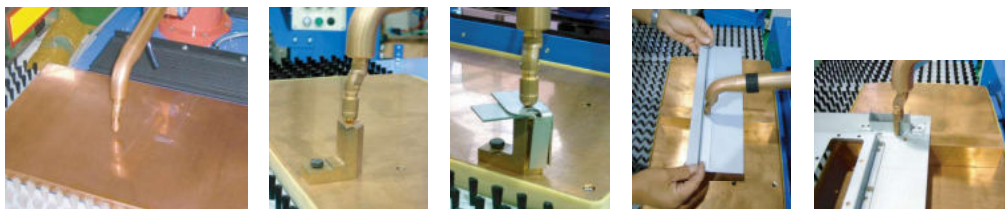

Comfortable Posture

Easy working posture makes long hours of work more comfortable. Table Height is adjustable.

Faster Operation

The Horizontal Gun can be locked. The operator can hold the products with both hands.

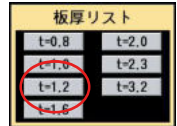

Choose MATERIAL and THICKNESS. Then you are ready to spot! Automatic setup for Weld Parameter and Tip Pressure.

It's as easy as "One, Two, and SPOT!"

One

Two

Spot!

Patent No. 4419174
3922917
3844287

[SPECIFICATION]

RATED CAPACITY : 30kVA
VOLTAGE : AC 200V Single Phase
FREQUENCY : 50/60Hz
GUN TYPE : Horizontal(H) Gun
WELD CURRENT : 10000A
AIR PRESSURE : 0.5Mpa
TIP PRESSURE : 2.5 kN
DUTY CYCLE : 7%
TABLE SIZE : t 15×400×250mm
TABLE HEIGHT : 900 ~ 1000mm
WATER FLOW : 8.5 L /min or more
ELECTRODE TIP : Φ13 (Taper Size 1/10)
CHILLER : Option
DIMENSION : W730×D1170×H1410mm
WEIGHT : 400Kg

REFERENCE WELD CAPACITY

MILD STEEL (2.3 x 2.3mm), GALVANEAL(2.3 x 2.3mm)
STAINLESS STEEL (2.5 x 2.5mm), GALVANIZED STEEL(2.3 x 2.3mm)
* Materials referenced above can vary slightly by manufacturer and county of origin. KOYO GIKEN INC. guarantees the performance of MYSPOТ, but cannot guarantee individual material specifications or thicknesses.
